

## Solve 3D Shape Riddles

Here are some riddles on the worksheet. Can you solve and draw the correct shapes?

### Ques 7- hints :

I have many faces, all equal in size, sharp edges, and corners that rise.  
What am I, with sides of six?

\_\_\_\_\_

### Ques 8 - hints :

Without any vertices, I roll with ease, no flat faces, just curves, if you please.  
What am I, a shape so round, often in games, on the ground?

\_\_\_\_\_

### Ques 9 - hints :

I'm like a prism, but not quite so plain, with triangular faces, a unique terrain.  
What am I, a shape so grand, in pyramids, you might find me stand?

\_\_\_\_\_

### Ques 10 - hints :

I have two faces that are circular, a solid shape, not particular.  
What am I, in the kitchen found?

\_\_\_\_\_

### Ques 11 - hints :

Sharp as a mountain, a point on the top, my base is a polygon, but don't stop.  
What am I, with sides that taper, a shape that's not a sky-scraper?

\_\_\_\_\_

### Ques 12 - hints :

I'm like a cube but stretched and long, my sides are rectangular, a sturdy throng.  
What am I, often used for shipping?

\_\_\_\_\_
