## Convert the Measurements into Areas

Measure the length and breadth of the rectangles and calculate the areas. Consider the integers only.

[Hint: Area of a Rectangle = Length x Breadth.]

Area of this Rectangle: \_\_\_\_\_ square centimeters.

Area of this Rectangle: \_\_\_\_\_ square centimeters.

Area of this Rectangle: \_\_\_\_\_ square centimeters.

Area of this Rectangle: \_\_\_\_\_ square centimeters.

Area of this Rectangle: \_\_\_\_\_ square centimeters.

Please cut the scale and measure the lengths given above.
