# Count Vegetables and Complete the Path

Count the vegetables and complete the path with a color pen.

**START** →

The maze consists of 13 boxes arranged in a grid-like pattern. Each box contains a question "How many?" followed by an illustration of a vegetable. The boxes are connected by lines, and numbers are placed on these lines to indicate the count of vegetables in the adjacent box. The path starts at the top-left box (6 cabbages) and ends at the bottom-right box (FINISH). The correct path is: 6 cabbages (6) -> 2 purple radishes (2) -> 4 carrots (4) -> 6 green cabbages (6) -> 4 green beans (4) -> 2 mushrooms (2) -> FINISH.

Box	Vegetable	Count
1	Cabbages	6
2	Purple radishes	2
3	Red onions	3
4	Carrots	4
5	Green cabbages	6
6	Orange onions	4
7	Red chili peppers	4
8	Green beans	8
9	White radishes	4
10	Yellow corn cobs	4
11	Mushrooms	2
12	FINISH	Checkered flags
