

Simple Word Problems on Breaking Apart Ones and Tens for Addition

Sam sold 25 pencils in one week. He sold 48 pencils the next week.
How many pencils did he sell in both weeks?

Add the ones
 $5 + 8 = 13$

| Tens | Ones |
|----------------------|------|
| <input type="text"/> | |
| 2 | 5 |
| 4 | 8 |
| | |

Regroup,
13 ones = 1 tens and 3 ones

| Tens | Ones |
|--------------------------------|------|
| <input type="text" value="1"/> | |
| 2 | 5 |
| 4 | 8 |
| | 3 |

Add the tens
 $1 + 2 + 4 = 7$

| Tens | Ones |
|--------------------------------|------|
| <input type="text" value="1"/> | |
| 2 | 5 |
| 4 | 8 |
| 7 | 3 |

Solve the problems according to the above solution

1. $\begin{array}{r} \square \\ 34 \\ +17 \\ \hline \end{array}$

5. $\begin{array}{r} \square \\ 39 \\ +56 \\ \hline \end{array}$

9. $\begin{array}{r} \square \\ 14 \\ +70 \\ \hline \end{array}$

13. $\begin{array}{r} \square \\ 67 \\ +19 \\ \hline \end{array}$

2. $\begin{array}{r} \square \\ 48 \\ +25 \\ \hline \end{array}$

6. $\begin{array}{r} \square \\ 82 \\ +15 \\ \hline \end{array}$

10. $\begin{array}{r} \square \\ 88 \\ +20 \\ \hline \end{array}$

14. $\begin{array}{r} \square \\ 22 \\ +55 \\ \hline \end{array}$

3. $\begin{array}{r} \square \\ 73 \\ +44 \\ \hline \end{array}$

7. $\begin{array}{r} \square \\ 37 \\ +18 \\ \hline \end{array}$

11. $\begin{array}{r} \square \\ 65 \\ +50 \\ \hline \end{array}$

15. $\begin{array}{r} \square \\ 30 \\ +88 \\ \hline \end{array}$

4. $\begin{array}{r} \square \\ 70 \\ +40 \\ \hline \end{array}$

8. $\begin{array}{r} \square \\ 77 \\ +17 \\ \hline \end{array}$

12. $\begin{array}{r} \square \\ 51 \\ +29 \\ \hline \end{array}$

16. $\begin{array}{r} \square \\ 27 \\ +10 \\ \hline \end{array}$
