## Planetary Survey for Reading Bar Graphs

Here is the bar graph of a planetary survey of moons of some planets. Answer the below questions with the help of the graph.

Planets	Moons
Earth	1
Mars	2
Venus	
Uranus	27
Neptune	14

- i) The "Venus" has \_\_\_\_\_ moons.
- ii) The "Neptune" has \_\_\_\_\_ moons higher than the "Earth".
- iii) Who has the most number of moons? \_\_\_\_\_.
- iv) The Mars has \_\_\_\_\_ moons extra than the "Venus".
- v) The "Uranus" and the "Mars" have a total of \_\_\_\_\_ moons.
- vi) The "Earth" has \_\_\_\_\_ moon.
