Completing Path by Counting by 2s Worksheet

Fill in the missing numbers by counting 2s and help the mouse to find the house.

The path consists of two main loops. The top loop starts with a mouse at a segment labeled '1'. The path continues through segments labeled '13' and '21'. The bottom loop starts with a segment labeled '27' and continues through segments labeled '35', '39', and '45'. The path ends at a yellow house with a red roof. There are several empty segments along the path for the student to fill in.
