Word Problems with Pictures

1) There are 9 cookies on a plate. 4 cookies are eaten. How many cookies are left on the plate?

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2) There are 10 flowers in a garden. 3 flowers are picked. How many flowers remain in the garden?

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3) There are 8 cupcakes on a tray. 6 cupcakes are eaten. How many cupcakes are still on the tray?

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

4) There are 7 butterflies fluttering in the garden. 1 butterfly flies away. How many butterflies are still in the garden?

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$
