

## Counting Back to Solve Subtraction Equations

**Directions:** Count back from one number to another number to solve the subtraction equations.

1) I can count back 9 from 17

17, 16, 15, 14, 13, 12, 11,

10, 9, 8

$$17 - 9 = \underline{8}$$

4) I can count back 6 from 20

20, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

$$20 - 6 = \underline{\quad}$$

2) I can count back 5 from 12

12, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

$$12 - 5 = \underline{\quad}$$

5) I can count back 7 from 13

13, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

$$13 - 7 = \underline{\quad}$$

3) I can count back 9 from 19

19, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

\_\_\_\_\_ , \_\_\_\_\_ , \_\_\_\_\_

$$19 - 9 = \underline{\quad}$$

6) I can count back 10 from 19

19, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

\_\_\_\_\_ , \_\_\_\_\_ , \_\_\_\_\_ , \_\_\_\_\_

$$19 - 10 = \underline{\quad}$$
