## Solve the Word Problems to Write the Equations

Write down the total number after adding two random numbers.

1. William has 7 toy cars, and he buys 3 more toy cars from the store. How many toy cars does William have now?

$$\underline{7} + \underline{3} = \underline{10}$$

2. Isla has 11 markers, and she gives 6 markers to her friend. How many markers does Isla have left?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

3. There are 8 cupcakes at the bakery, and 4 more cupcakes are baked. How many cupcakes are there in total?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

4. Daniel has 12 soccer balls, and he gives away 7 soccer balls. How many soccer balls does Daniel have left?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$
