Tracing Numbers 1-5 with Clues

Trace the numbers starting from the arrow:

A solid black number 1 with a red arrow at the top pointing right, indicating the starting point and direction of the stroke.	A dashed number 2 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 3 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 4 with a red arrow at the top left pointing up and left, indicating the starting point and direction of the stroke.	A dashed number 5 with a red arrow at the top right pointing left, indicating the starting point and direction of the stroke.
A dashed number 1 with a red arrow at the top pointing right, indicating the starting point and direction of the stroke.	A dashed number 2 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 3 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 4 with a red arrow at the top left pointing up and left, indicating the starting point and direction of the stroke.	A dashed number 5 with a red arrow at the top right pointing left, indicating the starting point and direction of the stroke.
A dashed number 1 with a red arrow at the top pointing right, indicating the starting point and direction of the stroke.	A dashed number 2 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 3 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 4 with a red arrow at the top left pointing up and left, indicating the starting point and direction of the stroke.	A dashed number 5 with a red arrow at the top right pointing left, indicating the starting point and direction of the stroke.
A dashed number 1 with a red arrow at the top pointing right, indicating the starting point and direction of the stroke.	A dashed number 2 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 3 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 4 with a red arrow at the top left pointing up and left, indicating the starting point and direction of the stroke.	A dashed number 5 with a red arrow at the top right pointing left, indicating the starting point and direction of the stroke.
A dashed number 1 with a red arrow at the top pointing right, indicating the starting point and direction of the stroke.	A dashed number 2 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 3 with a red arrow at the top left pointing up and right, indicating the starting point and direction of the stroke.	A dashed number 4 with a red arrow at the top left pointing up and left, indicating the starting point and direction of the stroke.	A dashed number 5 with a red arrow at the top right pointing left, indicating the starting point and direction of the stroke.
